**TILSON RECOGNIZED AS ENR TOP 600 SPECIALTY CONTRACTOR;
RISES 85 SPOTS TO #258 ON THE LIST**

PORTLAND, Maine (10/21/2020). Tilson, a national network development and information infrastructure professional services firm, has earned a place on the Engineering News Record (ENR) Top 600 list of Specialty Contractors for the fifth consecutive year. From #481 in 2018, to #343 in 2019, Tilson's 85 spot rise to #258 in 2020 reflects the company's sustainable year over year growth as it continues to meet increasing customer demands for 5G small cell and fiber networks across the country. Tilson was also recently recognized for the 10th year in a row on the Inc. 5000 list of the nation's fastest-growing private companies.

"Tilson is honored to be included again in ENR's Top 600 Specialty Contractors list," said Joshua Broder, Tilson CEO. "The pandemic has forced us to work differently together to solve problems in new and creative ways. As an essential service, our mission to provide solutions and value to our clients to enable them to innovate has never been more critical."

Engineering News-Record has been the magazine of record for stakeholders in engineering and construction industries since 1917. The Engineering News-Record compiles and publishes rankings of the largest construction and engineering firms annually, measured by gross revenues. The ENR also publishes annual 'Top of' lists recognizing individuals who are stand-out leaders in their industries. Former Tilson awardees include Tilson CEO Josh Broder, VP of Telecom Kelly Brewer, and Tilson General Counsel Tim Schneider. Both Broder and Brewer were named to the ENR New England Top Young Professionals list in 2017 and 2018 respectively. Following the release of the New England list, Broder was also named to the national magazine's inaugural list of America's "Top 20 Under 40" professionals in commercial engineering and construction. Schneider was the most recently recognized to the ENR New England 2019 Top Young Professionals list.

About Tilson:

Tilson is on a mission to build America's information infrastructure. Recognized ten consecutive years on the Inc. 5000, Tilson provides network deployment and information system professional services to telecom, construction, utility and government clients. As a leading network design, build, and operating firm, Tilson builds high-performing technology project teams who take on the largest and most impactful information infrastructure projects in the country.
