Tilson's Kelly Brewer Promoted to Vice President of Telecommunications

PORTLAND, Maine (December 18, 2018). Tilson, a national network deployment and IT professional services firm, is pleased to announce the promotion of Kelly Brewer to Vice President of Telecommunications effective January 1, 2019. In her new role, Brewer will lead a world-class team of professionals who are designing, building, and maintaining the most advanced network infrastructure for private, public, utility and government clients. As VP of Telecom, Brewer will oversee more than 360 employees in 17 states where Tilson has offices across the country.

"Kelly has been instrumental to Tilson's growth and is a truly effective strategic leader here at Tilson" says Tilson CEO Joshua Broder. "Her industry expertise, natural leadership ability, and drive for excellence will continue to play a key role in the success and growth of our company."

As Tilson's 18th employee, Brewer joined Tilson in 2011. Prior to her promotion, Brewer served as Director of Engineering for Tilson, where she oversaw the strategic planning and business development of Tilson's largest and fastest-growing business unit. In 2018, Brewer was recognized by ENR New England as a "Top Young Professional." Brewer holds a Bachelor's degree in Business and Construction Management from the University of Southern Maine and an MBA from Mississippi State University.

"This industry is evolving in so many exciting ways and I look forward to continuing my part in helping Tilson reach new heights" Brewer says. "High-performing people are core to our DNA at Tilson and I've been fortunate to work alongside an outstanding and incredibly talented group of people."

About Tilson:

Tilson is on a mission to build America's information infrastructure. Recognized eight consecutive years on the Inc. 5000, Tilson provides network deployment and information system professional services to telecom, construction, utility and government clients. With more than 450 employees and 17 offices nationwide, Tilson builds high-performing technology project teams who take on the largest and most impactful information infrastructure projects in the country.
